SKU:NO:101410564  
Material:PET+ glue + ink + cat's eye powder +UV  
Size:14/16/24 fingers

## Surprise effect

The cat-eye gel nail stickers offer a striking visual effect, resembling the unique shimmer and color-shifting properties of cat's eye stones.

## HOW TO USE?

**01 CLEAN**  
Clean the surface of your nails with an alcohol wipe to ensure they are dry and free of moisture.

**02 SELECT**  
Select the appropriate nail sticker size and apply it to your nail.

**03 APPLY**  
Press down from the center of the sticker to ensure it adheres completely.

**04 TRIM**  
Use scissors or nail clippers to trim any excess sticker.

**05 CURE**  
Cure the nails under a UV lamp for 60 seconds.

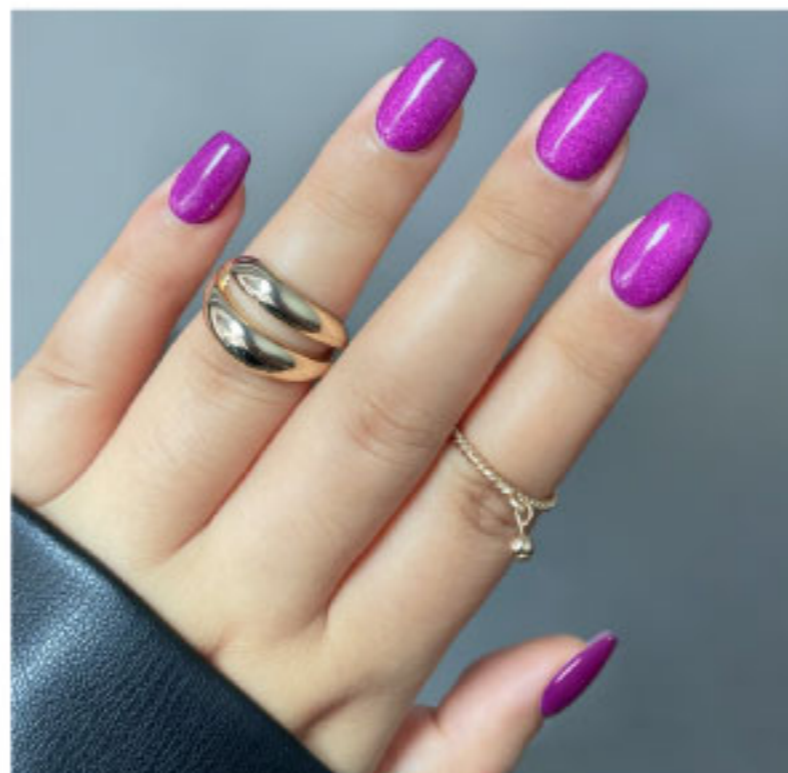

**06 FILE**  
Lightly file the edges with a nail buffer to shape and smooth the finish.

### ★ Special case

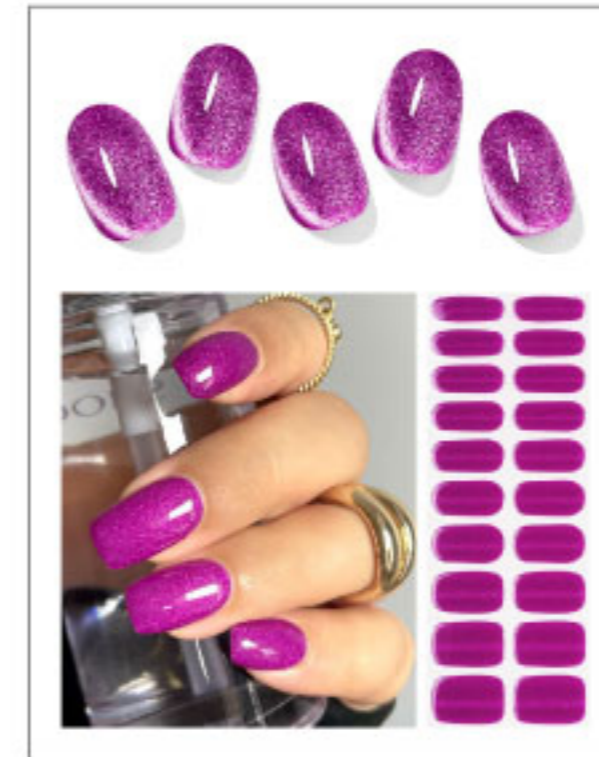

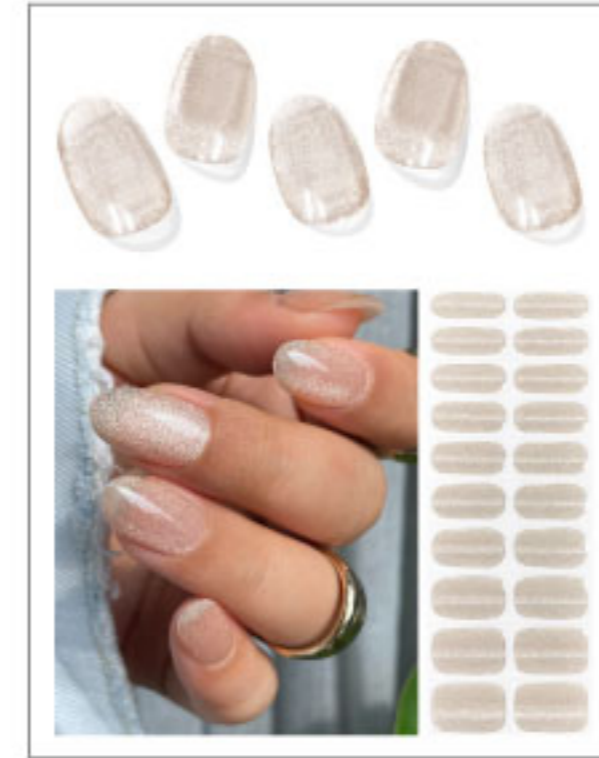

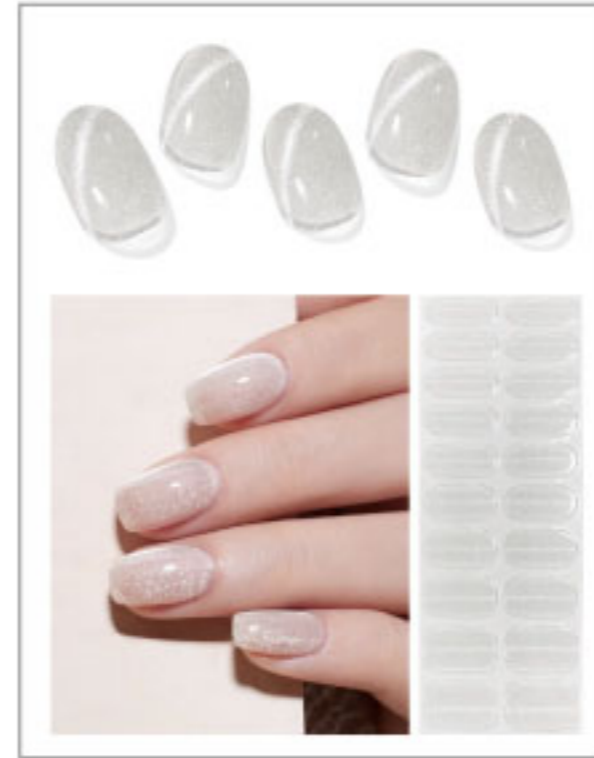

When you don't have scissors or nail clippers to use, you can do this! Fold the excess slightly down the edge of the nail and bake with a light for 40-60 seconds until the nail patch has solidified. Use a nail file to polish along the edge of the finger and remove the excess.
