The Hair Bow Trend Is Dominating Paris Spring Couture Week

Big ones, small ones, sleek ones, and shiny ones.

Bows have stolen the show as of late, both on the fashion and beauty fronts.

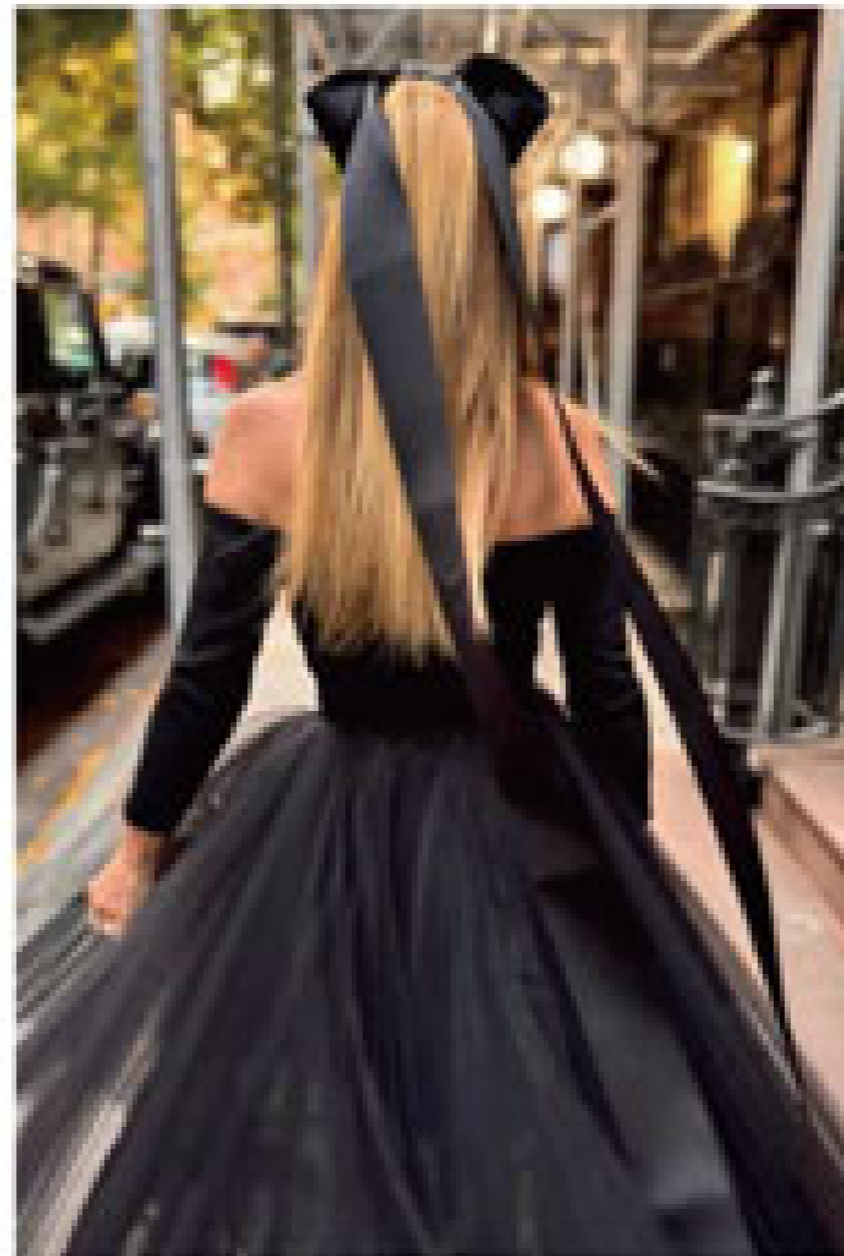

And according to Spring Couture Week 2024, the trend isn't fading anytime soon

Fashion Is Officially in Its Bow Era

BYRDIE

The bow element started trending in the summer of 2023 and is expected to continue and mature through 2024.

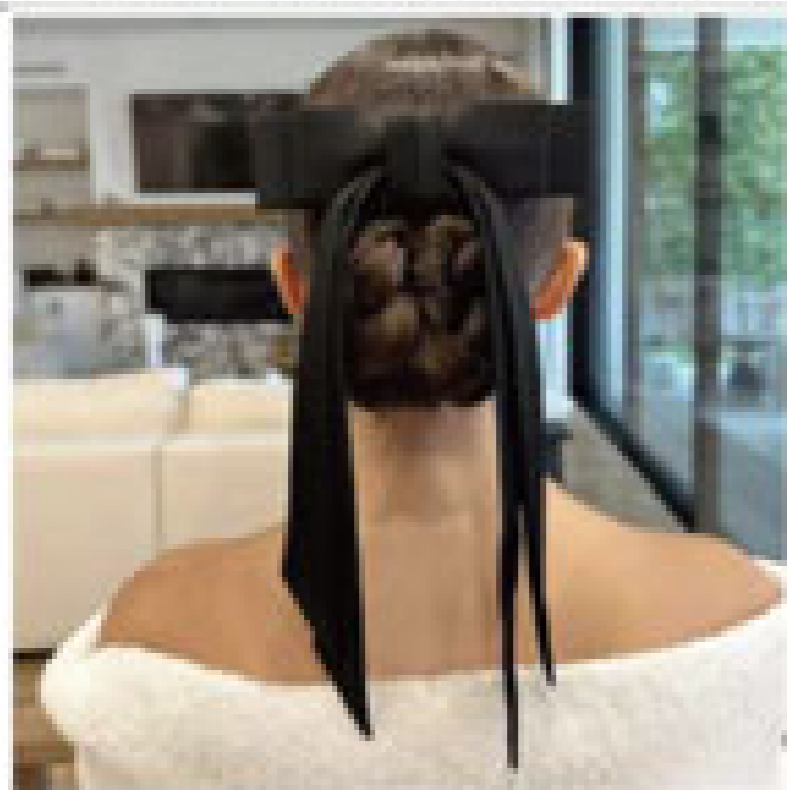

Bows have had quite the comeback in recent years, but this season they're even **bigger, bolder, and better** than in the past.

Stars like Sarah Jessica Parker are taking the **bow to bigger and bolder levels with XXL styles** that cascade down to butt length;

A big bow makes a statement, so make sure your outfit and hairstyle complement it. Avoid busy patterns or too many other accessories that might clash with the bow.

16 Renaissance Era-Inspired Hairstyles That Give Romance With a Modern Twist

From buns to crown braids, French braids, and styles adorned with ribbons and pearls, all these details are styles we can't get enough of these days.

Twice As Nice

A Renaissance hairstyle twofor, Olivia Culpo's look features a braid and a bow. Both elements add interest to a classic slicked-back bun—it's truly all in the details.

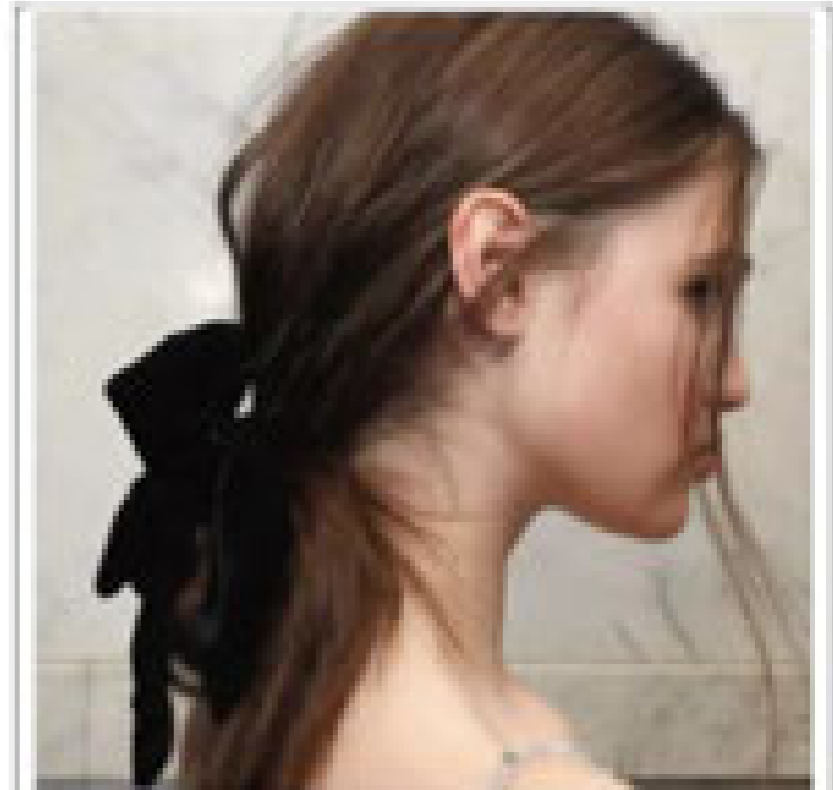

Bigger Is Better

To make a statement, go big with an oversized braided bun hairstyle and a jumbo bow to match. The Renaissance ladies of the court would have loved this look, but it also feels incredibly modern and coquette.

Pearl Jam

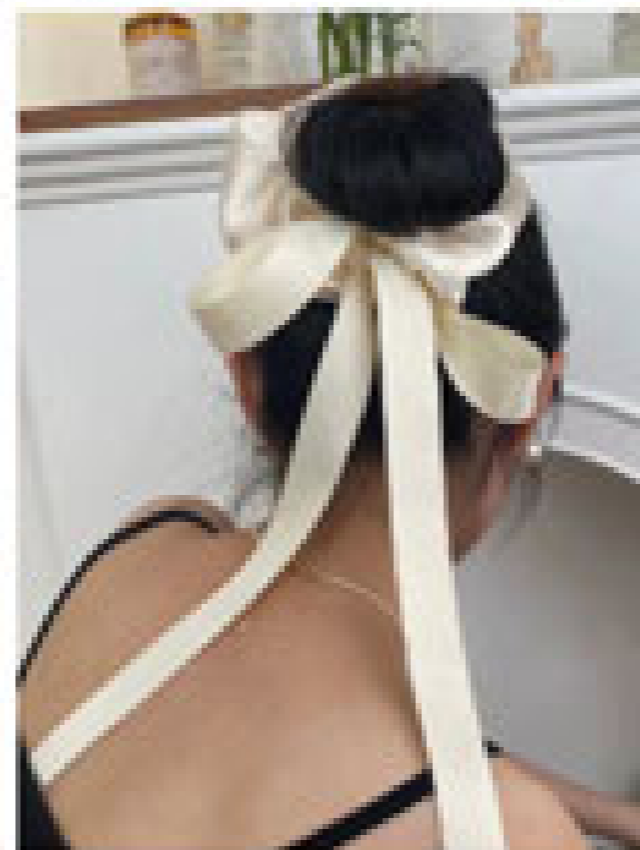

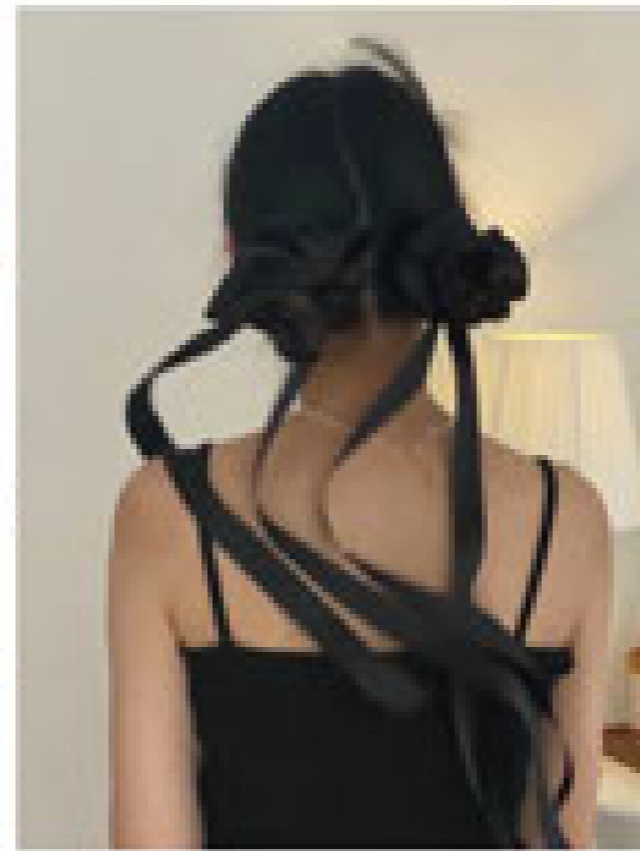

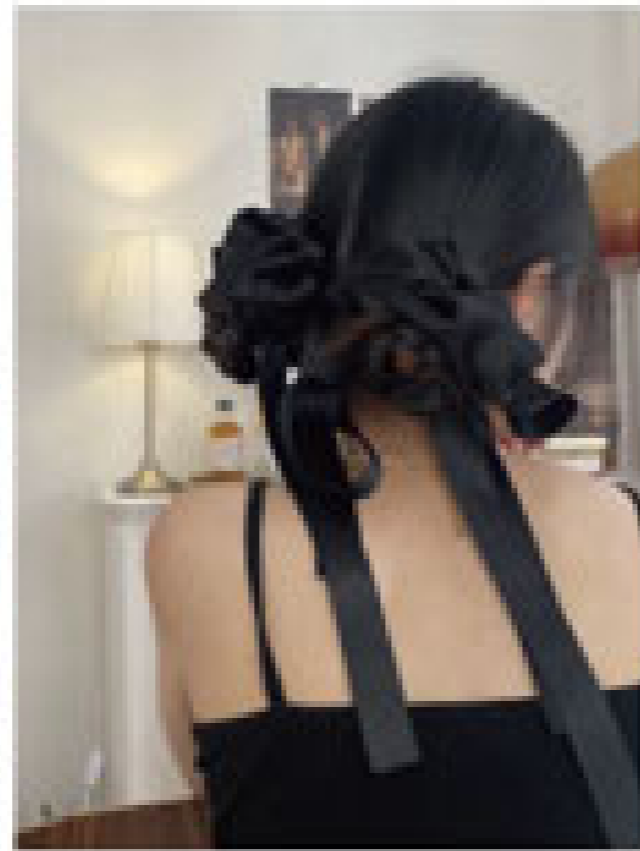

Can't decide between pearls, ribbons, lace, and bows? Simply sport them all for a maximalist masterpiece.

Tousled Texture

Here, an elegant bow beautifully ties together a relaxed, tousled hairstyle, straddling the best of both worlds.

This Spring Hair Accessory Trend Will Make Your Whole Outfit

BYRDIE

How to Get the Look:

The fun of wearing a flower hair accessory is that the sky is really the limit for styling.

Flower accessories work with loose hair, updos, half-updos, braids, literally anything.

Keep a bloom in place, "ideally by the ear or the back of the hair."

The Trend:

Rosettes had their moment in the spotlight in spring 2023, it was only a matter of time until the floral hair accessory made its way back into the trend cycle.
