Cardi B Rocks Duck Nails, Are They Here To Stay?

Beauty.style

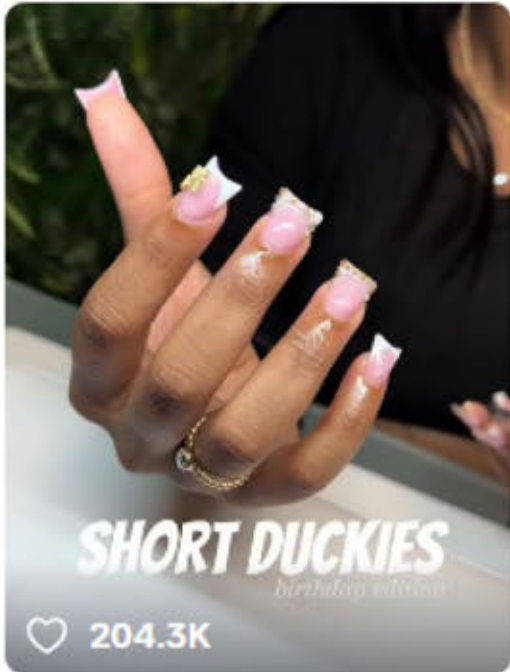

TikTok is to thank for the resurgence of Y2K duck nails, but now Cardi B may have stamped its popularity with her newest set.

Although duck nails still haven't fully gotten a wide range of approval, duck nails continue to trend on social media with **over 15.1 million views for the #ducknails** hashtag on TikTok and more than five thousand posts for the same on instagram. This resurgence of the trend may finally get it's neyaay, as this is the first time it has the beauty of social media to back up its popularity.

Will duck nails finally reign as the supreme nail design? We can only wait and see.
