Why Dryper?

Dryper diapers are certified with multiple international quality standards, ensuring safety and reliability. All products are free from harmful chemicals, making them gentle and safe for your baby's skin. Dryper's brand philosophy centers around "Caring for Every Baby," and we are committed to providing high-quality, safe diapers for moms worldwide. We aim to help babies grow healthily by offering comfort, dryness, and full protection.

Certified to meet strict safety and environmental standards.

Products with the Vegan Society certificate do not contain animal substances and are not tested on animals.

Certified by Dermatest, an independent dermatological testing program, Dryper products are gentle on your little one's delicate skin. The Dermatest seal certifies that results show the product to be free from contact skin allergens and reactors in sensitised volunteers in controlled testing.

FSC is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSCM-certified products are made from raw materials from well-managed forests and responsible sources.
